FIGHTER

Your standard X-11 Fighter. It has been used in nearly every confrontation since its development two decades ago, mainly because of its ease of manufacturing. It's not special in any way, but it's a quality piece of weaponry.

B BACK

Amazing local-multiplayer-arcade-space shooter! This game has a lot of potential!

It would be nice to have:

- More ships (only 12?)
- More skins
- New colours (Like Red, Pink, Green, Electric blue, etc.)
- A Flamethrower Power-Up would be nice...
- New gamemodes (I have some down...)
- Online multiplayer
- New maps
- Steam Workshop (for maps, ships, skins...)

My Gamemodes:

- Arena: You have 5 waves to complete, every wave there are 2 ships that you need to destroy (also this isn't with themes it's Free for All)
 - Team Arena: The same, but with teams (the 2 opponents are also in teams)
 - Colour Change: Team only, every killed enemy changes teams.
 - Power-Up: You can use only Powers-Ups!
 - Team Power-Up
 - Team Free Play!. Excellent little game with an really good co-op option!. Fun game to play if you have friends over.
- I would like to play it online though.. Played it a couple of times before release, great local multiplayer game, would be cool with a online multiplayer version.. This is a great party game and if you have no friends irl (like me) you can play bots :D. Awesome little game.

I have been exploring it on my own, but of course it was much more fun with some friends of mine. Great to kill some time :) And be angry with each other. :P. Damn Amazing! 20V10 IS AMAZING I LUV IT, I LUV IT
